SHORT TITLE

Section 1 of Pub. L. 98-478 provided: "That this Act [enacting this section and sections 539f and 619 of this title] may be cited as 'Federal Timber Contract Payment Modification Act'."

ADMINISTRATIVE APPEALS OF TIMBER SALES

Pub. L. 99-500, §101(h) [title III, §320], Oct. 18, 1986, 100 Stat. 1783-242, 1783-286, and Pub. L. 99-591, §101(h) [title III, §320], Oct. 30, 1986, 100 Stat. 3341-242, 3341-287, provided that: "To assure that National Forest and Bureau of Land Management timber included in sales defaulted by the purchaser, or returned under the Federal Timber Contract Payment Modification Act (Public Law 98-478) [see Short Title note above], is available for resale in a timely manner, such sales shall be subject only to one level of administrative appeal. This limitation shall not abridge the right of judicial review. Actions on such administrative appeals should be completed within 90 days of receipt of the notice of appeal. Sales that are reoffered shall be modified, including minor additions or deletions, as appropriate, to reduce adverse environmental impacts, pursuant to current land management plans and guidelines, and such modifications in themselves should not be construed to require the preparation of new or supplemental environmental assessments. This section shall not apply to any decision on the determination of damages due to the Government for defaulted or canceled contracts."

§ 619. Emergency stumpage rate redeterminations in Alaska

(a) Application; applicable period

Emergency stumpage rate redetermination shall be made upon the written application of the purchaser of National Forest timber in Alaska, bid after January 1, 1974, and rates established as a result thereof shall be effective for timber scaled during a period between January 1, 1981, and five years from October 16, 1984.

(b) Competitive effect of modification of contracts

In making the emergency rate redeterminations the Secretary may modify existing contract terms, including the amount of the bid premium, in order to provide rates which will permit the holders of contracts bid after January 1, 1974, to be competitive with other purchasers of National Forest timber.

(c) Excepted contracts

The provisions of this section shall not apply to contracts held by the holders of 50-year timber sale contracts in Alaska.

(Pub. L. 98-478, §4, Oct. 16, 1984, 98 Stat. 2217.)

§ 620. Findings and purposes

(a) Findings

The Congress makes the following findings:

- (1) Timber is essential to the United States.
- (2) Forests, forest resources, and the forest environment are exhaustible natural resources that require efficient and effective conservation efforts.
- (3) In the interest of conserving those resources, the United States has set aside millions of acres of otherwise harvestable timberlands in the western United States, representing well over 100,000,000,000 board feet of otherwise harvestable timber.

(4) In recent years, administrative, statutory, or judicial action has been taken to set aside an increased amount of otherwise harvestable timberlands for conservation purposes.

(5) In the next few months and years, additional amounts of otherwise harvestable timberlands may be set aside for conservation purposes, pursuant to the Endangered Species Act of 1973 [16 U.S.C. 1531 et seq.], the National Forest Management Act of 1976, or other expected statutory, administrative, and judicial actions.

(6) There is evidence of a shortfall in the supply of unprocessed timber in the western United States.

(7) There is reason to believe that any shortfall which may already exist may worsen unless action is taken.

(8) In conjunction with the broad conservation actions expected in the next few months and years, conservation action is necessary with respect to exports of unprocessed timber.

(b) Purposes

The purposes of sections 620 to 620j of this title are—

(1) to promote the conservation of forest resources in conjunction with State and Federal resources management plans, and other actions or decisions, affecting the use of forest resources;

(2) to take action essential for the acquisition and distribution of forest resources or products in short supply in the western United States;

(3) to take action necessary, to meet the goals of Article XI 2.(a) of the General Agreement on Tariffs and Trade, to ensure sufficient supplies of certain forest resources or products which are essential to the United States;

(4) to continue and refine the existing Federal policy of restricting the export of unprocessed timber harvested from Federal lands in the western United States; and

(5) to effect measures aimed at meeting these objectives in conformity with the obligations of the United States under the General Agreement on Tariffs and Trade.
